
People and Places

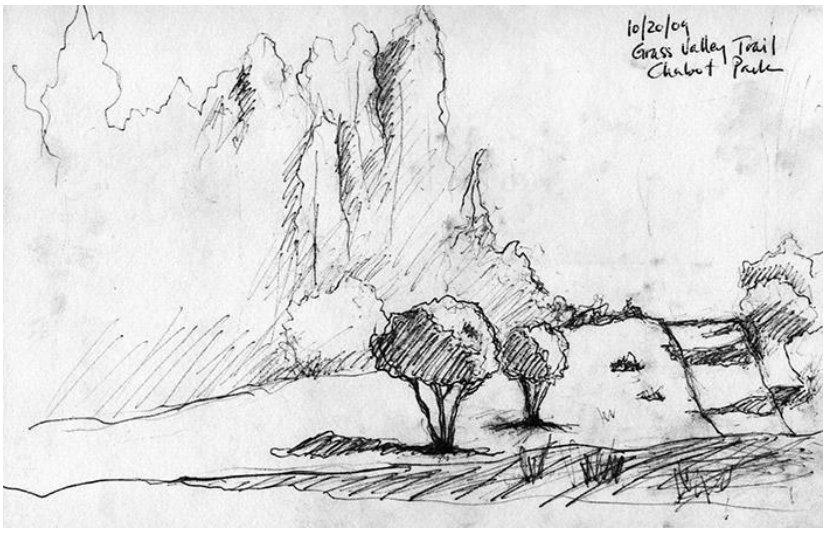
A Level Summer Project 2018

Your summer task is to take an A5 sketchbook out with you **every day** and sketch people and places.

By September your book should be full.

Your sketches will vary – some might take a while and others will be very quick and capture just a moment or a small detail. If you are caught out and haven't got your sketchbook with you, just use any bit of paper you have handy like the back of an envelope or a paper bag. You can clip it into your sketchbook later – it'll add to the character of your book.

Vary the materials you use e.g. pencils, pens, watercolours, charcoal, colour pencils, pastels etc.



Look at your sketchbook as a **visual journal** of your summer break. You can collect items in there and write thoughts and comments about what you have seen and experienced. <u>The more personal and creative it is the better.</u>

I'll look forward to seeing it in September!
