Arctic 360: take a tour without doing damage

After years of record temperatures, the Arctic is melting. Join our environmentally friendly Arctic tour, and witness the consequences of human behaviour

<https://www.theguardian.com/environment/ng-interactive/2016/dec/22/arctic-360-take-a-tour-without-doing-damage>

Great Barrier Reef

Join David Attenborough on a virtual tour of the diverse underwater world. Virtual snorkelers will learn about why the ecosystem is at risk and what they can do to protect it.

<https://attenboroughsreef.com/>

Antarctica

It's the highest, windiest and coldest continent on the planet – a record low temperature of -89.2C was recorded there in 1983. Antarctica is nearly twice the size of Australia and almost 98% of it is covered by ice. The conditions there are so harsh that there are no permanent residents.
